Aqua Screen Price List August 2008

Colour Concentrates

Aqua Screen Colour Concentrates are water based colourants that can be added to Screen Colour Systems binders to produce a variety of textile inks. The above colourants are in liquid form. See Technical Data Sheet for recommend mixing ratios and curing schedule of the finished products.

(See the "Aqua Screen Ink Price List" for ready to print textile inks.)

Code	Product	100 grams	1 kg

ASP 42	Ultra Blue	£5.50	£31.00

Gold & Silver Powder

Gold and Silver powders can be mixed into AS 206 Metallic Binder to create a brilliant shiny metallic effect. N.B. you cannot use the Aqua Cure Catalyst with the Gold and Silver powders. The metallic inks can only be cured with heat.

Gold Powder GT 1109 120 grams (to make 1 kilo Gold ink) £ 8.00
600 grams (to make 5 kilo Gold ink) £ 30.00

Silver Powder GT 1110 120 grams (to make 1 kilo Silver ink) £ 8.00
600 grams (to make 5 kilo Silver ink) £ 30.00

All prices are excluding V.A.T
