

# **Screen Colour Systems**

## **NyloScreen Price List August 2008**

NyloScreen solvent-based screen inks are for printing onto nylon textiles used for sports bags, umbrellas, clothing, boat sails, flags, Sports shoes. leather clothing and non-absorbent textiles. The finished print has good adhesion and stretch characteristics. The ink dries by evaporation and does not need a catalyst however; a catalyst is available for fabrics which have had a silicone treatment.
